## SILENT IN DEATH

The Matchless Tongue of Talmage Is Stilled Forever.

PREACHED TO MILLIONS

Through the Power of the Press the Weekly Sermons of This Great Divine Went Worldwide.

Death of Thomas DeWitt Talmage Removes a Conspicuous Figure in American Life.

Washington, April 14.—The Rev. Thomas DeWitt Talmage, the noted Presbyterian divine, died at 9 o'clock Saturday night at his residence in this city. It had been evident for some days that there was no hope of recovery, and the attending physicians so

REV. DR. T. DEWITT TALMAGE.

Informed the family. The patient gradually grew weaker until life passed away so quietly that even the members of the family, all of whom were watching at the bedside, hardly knew that he was gone. The immediate cause of death was inflammation of the brain.

Dr. Talmage was in poor health when he started away from Washington for Mexico for a vacation and rest six weeks ago. He was then suffering from influenza and serious catarrhal conditions. After his return to Washington some time ago he gradually grew worse until the fatal symptoms developed and hope was abandoned.

The funeral will take place at 4 o'clock Tuesday afternoon from the Church of the Covenant. The services will be very simple. There will be no funeral sermon, but short addresses concerning the life and works of Dr. Talmage will be made by men who have been intimately associated with him. At 9 o'clock Wednesday morning the interment will take place in the family lot at Greenwood cemetery, Brooklyn.

Silent tribute to the memory of Dr. Talmage was paid Sunday by thousands of people who walked past the residence on Massachusetts avenue, where the visit of death was marked by a cluster of violets tied with a streamer of black hanging at the right of the entrance. Messages of sympathy from nearly every state in the Union and from England, Russia and other European countries have come to the family.

Dr. Talmage was beyond a doubt the most popular preacher America has produced. When he had a church his congregations were as enormous as those of Henry Ward Beecher, and he at the same time addressed another congregation of millions through the newspapers. For many years his sermons were preached both from the pulpit and through the newspapers, but after he gave up his pulpit in Washington the great divine spoke to his flock wholly through the public press, and there was hardly a town in the United States where his sermon in the daily or weekly newspaper was not eagerly awaited by scores of people. It is probably no exaggeration to state that his sermon was read each week by several millions of people. It appeared in at least six languages, and the combined circulations of the newspapers printing his sermons were estimated at 30,000,000.

Dr. Talmage was born in Bound Brook, Somerset county, N. J., Jan. 7, 1832. His home was a small farm, and he was the youngest son of a family of 12 children. His parents were deeply religious people, and his greatest desire was to see some of their sons enter the ministry. Their hopes were fulfilled, for the eldest brother at the close of his college life went to China as a missionary, while another became a minister. Dr. Talmage himself entered law, but his parents never ceased to hope that he would eventually follow in the footsteps of his brothers. In 1853 he gave up legal practice and went to the college at New Brunswick to prepare for the ministry.

His first charge was at Belleville, N. J., where he spent three years. He then accepted a call to a church at Syracuse, N. Y., and remained there until 1862, when he accepted a pastorate in Philadelphia. This gave him

his first chance of reaching the people of a great city. His success was instantaneous, and he finally received three simultaneous calls from Brooklyn, Chicago and San Francisco. Though the church which had called him to Brooklyn was only 17 members, he chose that city, and the result of his choice is well known. Following the destruction by fire of his great Brooklyn tabernacle in 1874, Dr. Talmage for a time ceased his active pastoral work and went abroad for a tour of the world. He preached to large audiences in Australia, New Zealand, India and Great Britain and on his return wrote the story of his travels in a book called "The Earth Girdled," which enjoyed a wide circulation. He now devoted himself almost exclusively to his editorial work on The Christian Herald, his sermons being syndicated for weekly publication. In 1895 Dr. Talmage accepted for a time a pastoral call from the First Presbyterian church in Washington and was soon the most popular minister at the national capital. In 1900 he retired from active connection with the Washington church and devoted his time to editorial work, preaching and lecturing. The passing years served to increase his fame, and an announcement that he was going to preach always attracted a large audience.

Dr. Talmage was a voluminous writer on religious subjects. He was the author of a number of lectures, and his sermons have been published in 30 volumes. Among the better known of his works were "From Manger to Throne," "Sparks from My Anvil," "Crumbs Swept Up," "Sports That Kill," "Night Sides of City Life," "The Poetry of Life" and "Old Wells Dug Out." It is estimated that for many years his royalties netted him the princely income of \$20,000 a year.

### HOPEFUL SIGNS

London Is Encouraged by Strange Government Activity.

London, April 14.—The announcement of the presence at Pretoria of the Orange Free State and Transvaal leaders and generals who have been at Klerksdorp considering terms of peace has caused a decided increase in the hopefulness of the public concerning the possibilities of peace.

The expectations aroused by the conference at Pretoria have been further heightened by the movements of Mr. Chamberlain, the colonial secretary, and other members of the cabinet in London, and evidences that important dispatches are passing between Lord Kitchener and the government. A conference of members of the cabinet was held Saturday night at midnight in Mr. Chamberlain's house. Sunday Mr. Chamberlain and several of the colonial officials were in their offices. Messengers passed between them and Sir Michael Hicks-Beach at his residence. In the afternoon Mr. Chamberlain drove to Buckingham palace and remained with King Edward for two hours. During the afternoon messengers carried dispatches from the foreign office to Lord Salisbury, who with Mr. Balfour, the government leader in the house of commons, was at Hatfield House. These outward signs of Sunday activity have not been supplemented by any authentic or official statement.

**Two Women Killed.**  
Cleveland, April 14.—Mrs. Martha J. Calhoun, aged 70, and her daughter, Mrs. Vaughan, aged 46, were shot and killed Sunday morning by an unknown person near Mantua station, 40 miles from here. Will Vaughan, a stepson of the younger woman, is locked up in Ravenna jail as a suspect. Vaughan's father died a few days ago and it is believed he left the bulk of his estate to the two women.

**Murderous Bandits.**  
Uniontown, Pa., April 14.—Alfred J. Jones, a wealthy farmer, was murdered and his house robbed near Gars Saturday night by three burglars. Two sisters who lived with Jones were locked in the kitchen and guarded by one of the men while two went through the house.

**Arrested for Murder.**  
Chicago, April 14.—Gustave Miller, wanted in Peoria for the alleged murder of a deputy sheriff in 1897, was arrested here Sunday. After the murder Miller fled and although a vigorous search was begun it was not until yesterday that the fugitive was discovered.

**Kentucky Futurity.**  
Lexington, Ky., April 14.—Secretary Shanklin of the Kentucky Trotting Breeders' association has closed the Kentucky Futurity with 1,145 entries from 38 states and Canada.

### TERSE TELEGRAMS

The United States enjoys more of Canadian custom than the rest of the world put together. Neely, Rathbone and Reeves have all appealed from the verdict of the audience court at Havana.

The house has passed the senate bill granting a pension to the widow of President McKinley at \$5,000 per year.

In a fight between officers and desperadoes, near Brags, Indian Territory, four men were killed and seven wounded.

At Carrollton, Ky., the ten-year-old son of Elliott Lawrence, shot and killed himself with a revolver, after being reprimanded by his mother.

The cholera situation in Manila continues much the same, but the condition in the provinces is becoming serious. In Manila up to date there have been 102 deaths and in the provinces 318.

Seventy-two hours after Prof. Joseph M. Miller murdered Miss Carrie M. Jennett with a hatchet at Detroit he was in Jackson Prison, sentenced to spend the rest of his life there at hard labor.

The Chinese imperial troops are powerless against the rebels, whose numbers are daily growing. All the trade is at a standstill in the affected provinces and the missionaries have been ordered to leave the districts held by the rebels.

## THE CHINESE BILL

This Is the Measure That Holds the Attention of the Senate.

THE WEEK IN CONGRESS

Philippine Government Bill Will Follow the Exclusion Bill in the Upper House.

In the House of Representatives Cuban Reciprocity Starts a Big Debate.

Washington, April 14.—In accordance with the agreement reached on Friday last, the senate on Wednesday will vote on the Chinese exclusion bill, and the present understanding is that the Philippine government bill will be taken up immediately afterward.

It is probable, however, that the Philippine bill will be soon broken in on by the calling up of the river and harbor bill. Being an appropriation bill, this is a privileged measure and can be taken up at any time, but it is not the desire of the committee to have it considered until there shall have been a chance afforded to make further amendments in the committee. That opportunity will not be provided until Thursday, following the vote on the Chinese bill. The opponents of the Chinese bill will press their fight from this time forward, and if they find that they cannot secure its recommitment, they will concentrate their efforts on proposed amendments. Special efforts will be made to secure the adoption of the Platt substitute. There were a number of short speeches on the bill today, and in addition to these Senators Foraker and McLaughlin of South Carolina are on for set speeches this afternoon. A portion of the day Saturday will be devoted to eulogies on the late Senator Kyle of South Dakota.

### IN THE HOUSE

Cuban Reciprocity Will Hold Members All Week.

Washington, April 14.—The leaders of the house expect to see the Cuban reciprocity bill passed by the present week, but they admit that the debate will be prolonged so that the final vote will not be reached until next week. Proceeding as the debate is practically a rule it can be drawn out without as long as anybody desires to speak, but the leaders believe the general debate will exhaust itself by Thursday at the latest. When the measure is thrown open for amendment under the five-minute rule a great number of amendments will be offered by the Democrats with a view to opening up a way for amending the schedules of the Dingley tariff law. It is known in advance that all such amendments will be held to be not germane to the bill, whose title provides for reciprocity with Cuba, and that only amendments raising or lowering the amount of the proposed concession will be held to be in order. Appeals will be taken from the rulings of the chair on the general tariff amendments, but it is certain that with possibly one exception the appeals will be unsuccessful. That exception may be the amendment to take the differential off refined sugar. It is admitted on both sides of the chamber that the real fight will come on that amendment. A number of Republicans who are opposing the bill have announced that they will vote to overturn the chair on that proposition, and the Democrats expect to be able to cast a solid vote for it.

### After the Beef Trust.

Kansas City, April 14.—Major Wm. Warner, United States district attorney, has been instructed by the attorney general to immediately take steps to dissolve the so-called beef trust. A federal grand jury will be ordered this week to commence its session next Monday. Major Warner declines to make any statement whatever regarding the matter. Nothing so important to the entire people has occurred in years as the ordering of this investigation. In the past year, but notably in the past six months, the price of meat has gone up in an alarming way. The attorney for one of the largest packers in Kansas City, after hearing the dispatch read, said: "We anticipated some such move as this."

### Local Police Inadequate.

Manila, April 14.—The merchants of Lagayon in South Camarines province, Luzon, have sent a cable message to General Chaffee praying that the American troops be not withdrawn from Lagayon. The merchants declare that they are unanimously of opinion that if they are deprived of the protection of the military, they will become victims of the lawless element at the cost of their lives and property. They say that the local police have been unable to suppress the assaults, robberies, assassinations and forced contributions by gangs of the recalcitrant element in the neighborhood.

### Due to Jealousy.

Cleveland, April 14.—William Rogers, an iron worker, shot and fatally wounded John Turner Sunday afternoon on the street near the home of the former. Rogers was jealous of Turner, whom he believed to have destroyed the happiness of his home.

### House of Bishops.

Cincinnati, April 14.—Over 60 bishops have signified their intention to be present in this city on Wednesday and Thursday of this week at the session of the house of bishops of the Episcopal church.

### A NOTABLE EVENT

Columbia Club Will Celebrate Grant's Birthday.

Indianapolis, April 14.—The Grant Birthday dinner at the Columbia club April 26 promises to be a notable event. It will bring together a large number of Indiana's most prominent men. All the Republican members of congress from Indiana and both Senators Fairbanks and Beveridge will probably be present. In addition to the list of speakers already announced Judge Peter S. Grosscup of Illinois, a prominent member of the United States circuit bench, and the Hon. Spencer Blackburn of North Carolina, will be present. It will indeed be a feast of wit and flow of soul. Invitations will be sent to between 1,300 and 1,400 people. Covers, however, will not be laid for more than 300, as the banquet hall will not accommodate more than that number. The club intends hereafter to celebrate annually the birthdays of Washington and probably Lincoln, Grant, Harrison or other favorite sons of the nation.

The monthly bulletin of the state board of health shows that smallpox was the most prevalent disease in March, 785 cases being reported, as follows: Jay county 12, Hendricks 2, Union 1, Porter 1, Montgomery 41, Howard 3, Noble 46, Cass 4, Carroll 1, Shelby 37, Lawrence 12, Dekalb 1, Wayne 2, Vermillion 1, Morgan 1, Martin 1, Dubois 20, Wabash 16, Delaware 17, Clay 19, Warrick 61, Madison 64, Whitley 4, Clark 5, Gibson 22, Owen 1, Wells 81, Tippecanoe 1, Floyd 2, Lagrange 16, Perry 10, Posey 2, Allen 12, Vigo 6, Daviess 29, Vanderburg 34, Franklin 40, Adams 55, Knox 44, Marion 64, Grant 20, Greene 5, Spencer 2, Henry 2, Miami 3, Benton 1. Aside from smallpox the prevalence of diseases was in the following order: Rheumatism, bronchitis, influenza, pneumonia, tonsillitis, measles, intermittent fever, pleuritis, diarrhoea, scarlet fever, erysipelas, typhoid fever, diphtheria, cerebro-spinal meningitis, whooping-cough, inflammation of bowels, peripneumonia, cholera morbus, dysentery, cholera infantum. The three diseases now last in order of prevalence will next month move toward the top of the list.

Cigarette and cigar smoking will be tabooed at the Republican state convention next week. Samuel Kerchival, former United States marshal, who will be sergeant-at-arms, said today that he would have a force of 75 assistants who will be rigidly instructed that smoking don't go—least of all cigarette smoking. Many ladies will attend the convention and out of respect for them it is for no other reason, smoking is to be prohibited. If a man wants to indulge in a smoke during the convention he can adjourn himself to the hall corridors or go out doors. The ruling may not be popular with many, but it is to be enforced. The ruling prohibiting the use of the delegates' floor to outsiders is also the cause of much grumbling, as the old-timers hate to forego that privilege.

The prohibitionists will hold their state convention here tomorrow and Wednesday. Arrangements have been made for the entertainment of a large crowd. There will be over 1,000 delegates and it is expected by the party leaders that there will be twice that many people present. The convention will be held in Masonic hall and a full state ticket, beginning with secretary of state, will be nominated. There will be a meeting of the state committee tonight. The prohibs do a lot of talking against "machines," yet at their county convention here last week the first thing they did was to appoint a state committee which reported a ticket that was adopted unanimously. So it is not unlikely that the state committee will do a little slate-making.

The annual meeting of the National Association of Manufacturers will begin here tomorrow. It will probably be the most important gathering of manufacturers of the year, as the greatest industries of the country will be represented. A number of prominent manufacturers came in today. This meeting will probably take notice of the manner of enforcement of the interstate commerce laws, and it may have something to say on the questions of tariff and reciprocity. Regret was expressed today that Senator Mark Hanna and President Schwab of the steel trust, who had expected to attend, could not be present. The meeting will continue until Thursday and the "captains of industry" will be shown every courtesy by the city.

### Don't Agree With Coroner.

Hagerstown, Ind., April 14.—Notwithstanding the fact that Coroner Watts, after holding an inquest over the body of Miss Florence Thurston, pronounced the cause of death carbolic acid taken with suicidal intent, the family of the young woman is positive that she did not die in the manner or by the means described. They insist that she died from heart failure, brought about by excitement and worry over affairs of a personal nature. The coroner spent two days on the case, and apparently exhausted every source of information relating to the death. The verdict is received here as correct by the public, but the family maintains its first position and insists that death resulted from purely natural causes.

### House of Bishops.

Cincinnati, April 14.—Over 60 bishops have signified their intention to be present in this city on Wednesday and Thursday of this week at the session of the house of bishops of the Episcopal church.

## HE WOULDN'T BUY

Joseph Mahalek Pays With His Life For Refusal to Spend Money.

AN INFURIATED WOMAN

Enraged at the Thwarting of Her Desires Dora Bartlett Deliberately Shoots a Young Man.

Sunday Morning Tragedy at Terre Haute That Has Created a Profound Sensation.

Terre Haute, April 14.—Joseph Mahalek, a well-known young man of this city, is dying at St. Anthony's hospital as the result of a bullet wound which he received at the hands of Dora Bartlett early Sunday morning. Mahalek refused to spend money for beer and this enraged the woman, who went into an adjoining room and procured a revolver. She deliberately aimed the weapon at the young man and shot him down. She is under arrest. Owing to the previous good reputation of Mahalek the shooting has caused a sensation. There is no hope for his recovery.

### FOREST MADE TO ORDER

State Forester Superintending Big Job in Case County.

Logansport, Ind., April 14.—William H. Freeman of Indianapolis, state forester, is in the city to superintend the planting of a forest on the farm of Hon. Quincy A. Myers, four miles southeast of this city. Forest planting is a new thing in Case county, and thus far the farmers have been clearing the ground of trees in order to be able to cultivate it. Mr. Freeman states that Indiana is just beginning to awake to the need of protecting and increasing her fast falling forests and that last month he planted over 400 acres of trees in Indiana. In the forest that is proposed on the Myers farm 13,500 trees will be planted, of which number one tract is to be black locust.

### Brothers At Outs.

Vincennes, Ind., April 14.—Herman F. Bushing has brought suit for \$2,000 damages against his brother, Henry Bushing. Two weeks ago the brothers fought in the hotel of Henry, who broke Herman's nose with an iron poker. Both are prominent German citizens. Herman is a city alderman from the first ward and is proprietor of the St. John's hotel.

### Lockjaw Developed.

Hagerstown, Ind., April 14.—The 5-year-old son of Frank McLane, a farmer near Locust Grove Meeting House, five miles from Hagerstown, is dead of lock-jaw. The child was kicked by a horse several days ago and severely injured, but his recovery was assured by the physicians, and he continued to improve until lock-jaw developed and death resulted.

### Taken In Oklahoma.

Windfall, Ind., April 14.—George W. Kimmel, who three weeks ago it is charged forged notes for a large amount on the People's Bank of this place and made his escape at the time, has been arrested in Oklahoma City on a telegram from the bank, and is being held on the charge until Sheriff Schullenberg of Tipton county shall arrive.

### Robbers Were Foiled.

Macy, Ind., April 14.—The Commercial bank was entered by six burglars, who blew open the safe with nitroglycerin. The explosion wrecked the building, but did not open the part of the safe which contained the money. A number of people were aroused by the noise and the burglars fled without having secured any money.

### Shocking Tragedy.

Metamora, Ind., April 14.—Richard Oliphant, telegraph operator at the railroad station here, killed his stepfather-in-law, Peter Pelsor, by shooting, and later committed suicide by taking carbolic acid. Pelsor was 80 years old. The double tragedy was the result of long-standing domestic differences.

### Two Murder Indictments.

Portland, Ind., April 14.—An indictment has been returned by the grand jury against Charles Shepherd, who is charged with killing his wife two weeks ago. James Eitel, whose wife was said to have committed suicide, was also indicted.

### Mailbag Riffed.

Indianapolis, April 14.—A United States mailbag was rifled at Roachdale yesterday morning and three men who were tracked by bloodhounds are now in jail at that place awaiting an investigation by the government authorities.

### An Independent Candidate.

Terre Haute, Ind., April 14.—Dr. R. M. Hollingsworth, who has been the leader in the several law enforcement and Anti-Saloon League movements, has announced that he will be an independent candidate for mayor.

### Taken After Hard Fight.

Evansville, Ind., April 14.—Marshal Endicott of Cynthiana, Ind., had a fight with two burglars in a store. One of the men escaped, but the other was arrested by Endicott after a hard fight.

### BELGIAN RIOTS

Three Are Slain In the Charge of the Gendarmes.

Brussels, April 14.—The bloody repression of the disorders of Saturday evening has created a painful impression among all classes here, although it is appreciated that the majority of the victims of the encounters do not belong to the better class of workmen. This was the first time the police really fired their rifles loaded with ball cartridges. Previous to this they had used their swords and their revolvers, the latter being usually loaded with blank cartridges. Saturday's rioters were composed of the dregs of the population, with a sprinkling of what is called the young socialist guard, composed of mere boys with little regard for the orders of M. Van der Velde, a member of the chamber of deputies and the leader of the socialist movement in Belgium and the socialist committee. Three were killed and many wounded. Among the injured are many imprudent spectators of the rioting who were caught between two fires, as the gendarmes frequently combined their movements and charged the mob front and rear at the same time.

The threatening aspect of a mob near the Maison du Peuple at 11 o'clock Sunday night caused the police and gendarmes to charge it. Five of the demonstrators were wounded. One of the injured men will die. He received a bayonet thrust in the back. Sixteen arrests were made during the evening.

### ARMY CHANGES

Gen. Miles' Retirement Is Now Practically Assured.

Washington, April 14.—The issues are fairly joined between the lieutenant general and the secretary of war. The troubles which began long ago under the Cleveland administration have finally reached so critical a stage that the compulsory retirement of General Miles at an early date is an open secret and is not denied at the White House. If he should go out before General Brooke is retired, General Brooke, who is General Miles' senior both in service and in age, and who did gallant and distinguished work as a volunteer in the civil war, would undoubtedly be put in his place as lieutenant general, as it is known that the administration has been very desirous of recognizing General Brooke's long and faithful service.

General Brooke during the civil war rendered equally meritorious service with General Miles; General Brooke was the first to obtain a commission and throughout the civil war he retained his advantage, ending the war as General Miles' senior. After peace came General Miles was promoted over General Brooke's head. As General Brooke will necessarily hold the position but a brief period before his retirement for age, General S. M. B. Young is likely to succeed General Brooke, and General Chaffee's promotion to follow two years hence.

### Lion Vanquished.

El Paso, Tex., April 14.—A battle at Juarez, Mex., Sunday between a Numidian lion and a wild Samalaya bull was witnessed by thousands of people from all over the Southwest and Mexico. One-fourth of the spectators in the amphitheater were American women. The battle continued fiercely for an hour. The bull was not fatally hurt, but the lion was gored fully 25 times and will doubtless die. His leg was broken and he was completely vanquished in strength and spirit. When the lion was incapacitated the Mexican authorities ordered the battle to be discontinued.

### Waller's Acquittal.

Manila, April 14.—Major Lyletton W. T. Waller of the marine corps, has been acquitted. He was tried by a court martial on the charge of killing natives of the Island of Samar without trial. The court stood 11 to 2 for Waller's acquittal.

## THE RACE

Does not depend on the start but on the finish. It's staying power which carries many a runner to victory. It's like that in business. Many a man starts off in the race for business success with a burst of speed which seems to assure victory. Presently he begins to falter and at last he falls and fails. The cause? Generally "stomach trouble." No man is stronger than his stomach. Business haste leads to careless and irregular eating. The stomach and other organs of digestion and nutrition become diseased. The body is inadequately nourished and grows weak.

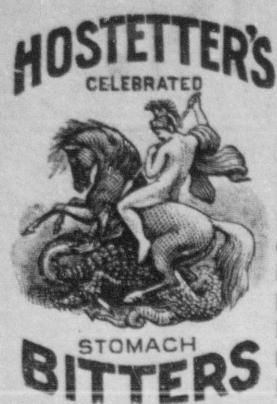

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It strengthens the stomach and so strengthens the whole body which depends on the stomach for the nourishment from which strength is made.

There is no alcohol in "Golden Medical Discovery," and it is entirely free from opium, cocaine and all other narcotics. Accept no substitute for the "Discovery." There is no medicine "just as good" for diseases of the stomach and allied organs.

"Your 'Golden Medical Discovery' has performed a wonderful cure," writes Mr. H. H. House, of Charleston, Franklin Co., Ark. "I had the worst case of dyspepsia, the doctors said that they ever saw. After trying seven doctors and everything I could hear of, with no benefit, I tried Dr. Pierce's Golden Medical Discovery, and now I am cured."

Dr. Pierce's Pleasant Pellets cure constipation.

For that run down, tired feeling in the Spring, there is no medicine to equal the Bitters. It will restore the appetite, purify the blood, and cure Dyspepsia, Indigestion, Nervousness, Insomnia and La Grippe.

### WEEKLY.

One Year in Advance.....\$1.00

Entered at the Seymour, Indiana Postoffice as Second-class Matter.

MONDAY, APRIL 14, 1902.

## REPUBLICAN CITY TICKET.

For Mayor  
ALFRED W. MILLS.  
For Treasurer  
THOMAS J. CLARK.  
For Clerk  
FRED EVERBACK.  
For Judge  
ABSALOM H. HOOVER.  
For Marshal  
ABRAHAM THICKSTEN.  
For Councilmen.  
2nd ward—  
EDWARD L. HANCOCK  
ALBERT D. ELDRIDGE.  
4th ward—  
HENRY P. MILLER  
DANIEL M. HOSKINS  
5th ward—  
EDWIN E. DOANE  
THOMAS M. STEWART.

THREE weeks from tomorrow the city election will occur.

THE republican state convention will be held on Wednesday and Thursday of next week.

WITH new industries in operation and employing 150 to 200 men at good wages before this year is much more than half over Seymour will be taking on new life. The indications are that this will be a great year for Seymour.

IT was easily observed that several Seymour democrats spent yesterday, Sunday, apologizing for the methods used by the slate makers to control the primaries. But the progress they are making with conserving and self respecting democrats is not very rapid.

ABOUT sixteen years ago Mack Isaacs made a race for recorder and was defeated. Last week he was defeated again. It will probably be sixteen years before he will try it again. It is said that Mack has confided with some of his neighbors his conviction that he is not appreciated by his party. He is not such a "hummer" as he has been pleased to call himself when it comes to running for office.

WE BELIEVE Senator Beveridge to be the best qualified of any man in Indiana to deliver the address on the occasion of the dedication of the soldiers' and sailors' monument, but we wish to congratulate the governor upon having done the next best thing by inviting the Hon. John W. Foster to perform that function. Col. Foster is not Indiana's greatest orator but he is a speaker of high ability and a man of unusually wide experience and learning and his address on the 15th of May will no doubt measure up to the requirements of the great occasion. —Lafayette Cell.

### POLITICAL GOSSIP.

The democrats of Columbus Saturday evening nominated John Walker for mayor, Karl Volland for clerk, Wm. W. Adams, for treasurer, and Roger Dixon, for marshal. McCormack, having been turned down for mayor can probably yet get the nomination for councilmen from his ward.

The democrats that met at Browns-town Saturday appointed the following committee for Jackson township: Frank Adams, Wm. Humes, Thos. Honan, J. R. Buhner, Wm. Buse, Henry Alwes, W. L. Kasting, H. Brethauer, Henry Kelly and Allen Swope. Willard Stout was appointed secretary of the county committee.

## THE LARGER LIFE.

### Special Sermon to the Knights of Pythias by Dr. E. R. Vest.

About seventy-five Knights of Pythias went in a body Sunday evening to the Methodist church to hear a special sermon by Rev. E. R. Vest, D. D. There was a large crowd present besides the Knights so that the large auditorium was packed. Dr. Vest was at his best and preached an eloquent sermon filled with wholesome gospel truth. He made plain the development and growth of the larger life, and how this growth crowds sin out. He made a strong plea for the religion of Jesus Christ, and his eloquent words and clear presentation of religious truth made a deep impression on his audience. Below is given Dr. Vest's text and a brief synopsis of this splendid sermon:

Text, John 10:10—"I am come that they might have life, and that they might have it more abundantly."

Sin as an active principle is always destructive of life. The Christ came to destroy sin then He came to give life. As the great teacher He taught the principles of the Larger Life—a life larger than the world even now has any adequate conception. No where does inspiration teach, or reveal that Christ taught or intended to imply that religion means contraction. Religion is misinterpreted when its teachers make the impression that to be religious means to minimize, or dwarf, or devalue the forces of the human mind and heart. Godliness is expansion. Christ was the first and only true cosmopolitan. He was the Son of God—and the Son of Man. He linked humanity to Himself and Himself to the Father in a spiritual hypostatic union—bridging the awful chasm sin had made between the pure heart of God and the sin cursed nature of man.

Religion is so often presented as a funeral procession lasting through life, preceded by the tolling bell, followed by the sexton with a long shovel to bury every laudable ambition and youthful hope, the intervening years filled in with ten thousand "don'ts." Religion is not a "Dead March in Sand" nor a cemetery. Religion is a glorious resurrection.

Sin only is killed. "I am come that ye might have life." Religion is misinterpreted when its teachers say: "Read nothing but the Bible." "Preach nothing but the Cross." "Church life socials, entertainments are of the Devil." That teaching is not of Christ, is not religion. It is fanaticism and crankism that is emptying the churches and driving people away from Christ. Christ taught the larger life through the development of the sources of life's manifestations. Religion is life's complement, not life's destroyer. Religion is law, liberty and life.

### Rural Mail Boxes.

The Senate has inserted a four line amendment in the postoffice appropriation bill that is of great interest to farmers. It directs the Postmaster-General to purchase, after advertising, metal boxes of uniform size at a cost of not more than 50 cents each to be furnished free to patrons of rural free delivery routes. Under the present system, farmers must pay for the boxes, which cost from \$1.50 to \$3 each, and the government limits the purchase to fourteen makes of boxes. A similar amendment was voted down in the House when the bill was up there, and it will be for the conference committee to say whether or not it stays in the bill.

Clarence Weaver, who for three years was one of the faithful REPUBLICAN carrier boys, resigned Saturday, and Sunday left for Indianapolis where he expects to find employment. He is a good boy and the REPUBLICAN wishes him the highest degree of success. Harland Montgomery takes his paper route and begins work this evening.

### Twain and the Rivermen.

Mark Twain once told to a party of friends the following story on himself: On one occasion when he started on a trip down the Mississippi river on a flatboat he was advised never to answer the questions asked by rivermen on other boats and never to bandy words with them, as he would be sure always to come out second best. He followed the advice religiously for a time, one day he thought he saw a chance to get the better of a riverman who called out: "Hey, thar, what yer loaded with?" "Jackasses. Don't you want to come aboard?" yelled back Twain. "That's what I reckoned, seeln' as how they let their biggest donkey hev their run of the deck!" came back Twain made a dive below as all the rivermen in the neighborhood set up a derisive laugh at his expense.

### Tis Easy To Feel Good.

Countless thousands have found a blessing to the body in Dr. King's New Life Pills, which positively cure Constipation, Sick Headache, Dizziness, Jaundice, Malaria, Fever and Ague and all Liver and Stomach troubles. Purely vegetable; never gripe or weaken. Only 25c at W. F. Peter's drug store.

## PALMA IS PLEASED

### Cuba's President-Elect Grateful for What The United States Has Done for the Island.

### CUBANS ARE NOW PEACEABLE

Since the Spanish Left the Gem of the Antilles Conditions Have Greatly Changed—Palma Is Confident of the Future of the Island.

A Washington dispatch to the Indianapolis Journal says: President-elect Tomas Estrada Palma of Cuba, having finished his conferences with President Roosevelt, Secretary Root and other officials on matters connected with the transfer of the islands from American to Cuban control, has left for his New York home, where he will remain until the last of April, when he will leave for Santiago province, in which he will spend a few days, going thence to Havana to be inaugurated May 20. There was an air of contentment about General Palma as he discussed the disposition of the various questions which brought him here. He said he realized the magnitude of the work on which he was about to enter and its attendant responsibilities, but was confident the future of Cuba was assured and that the island would have a successful career.

### Confident of the Future.

"I will enter upon my duties as president of Cuba," said Gen. Palma, "confident in the belief that there is a splendid future in store for the island. The people are naturally of an orderly, peaceable disposition, mild-mannered and submissive to law and order. What they need is the opportunity to work, and with this assured prosperity will come to the people. Secretary Root said to me today that he is satisfied with the conduct of the Cuban people since the American occupation, and that he had no complaint to make in that regard. The condition of affairs is very different now from what it was under Spanish regime, when the people were under the rule and subject to the will of a captain general and the military authorities. "The ceremonies incident to my inauguration will be in keeping with the requirements of the occasion. One of these will be the lowering of the American colors in Havana and the raising of the Cuban flag—an act which will mark the termination of American occupation and the formal assumption of the government by the Cubans. The ceremonies will take place in the palace. Closely following the induction of the new government will be the appointment of a minister to represent it at Washington. As soon as this has been done and a representative appointed from the United States to Cuba, steps will be taken for the drafting of a treaty between the two governments embodying the features outlined in the Platt amendment, which has been made an appendix to our constitution. This will include provision for a naval station probably at Guantanamo, although this is not settled, and the establishment of coaling stations at points to be mutually agreed upon."

### Native Artillerymen.

"The orders given to General Wood contemplate the retention of about 800 artillerymen at various coast points for a time," was suggested to General Palma. "Those artillerymen are to be kept at the batteries with the consent of the Cuban people," responded General Palma. "They are not to interfere in any way with Cuban affairs. They will be retained until the Cuban government is ready to replace them with a force of its own men. The latter now has about 300 men who have been drilled in artillery practice, and to these it is contemplated adding about 100 more. As soon as they are sufficiently familiar with the duties that will devolve on them they will take the places of the Americans." The Americans then presumably will be sent to the naval and the coaling stations provided for in the treaty to be ratified between the two governments. The United States government will thus avoid the necessity of shipping the troops to the United States and back again to Cuba.

Of course, should the remote possibility occur of an attack upon Cuba by a foreign foe demonstrate the necessity of the assistance of artillerymen in the coast batteries, they no doubt will be available for that purpose, but such a contingency is not likely to occur, as Cuba has no foes which desire to menace her." General Palma, in closing, paid this tribute to the United States government: "The government of the United States has shown a most beautiful example of good faith in dealing with a weak government which it undertook to rescue from its oppressors. It has demonstrated its generosity and patriotism, and by the shedding of its own blood has helped Cuba to break the chain which united it with Spain. Some countries would have sought some pretext for selfish gain in undertaking a work of this character, and taken advantage of some technicality for their own aggrandizement, but the contrary spirit has been manifested by the United States, and it has given to the world an evidence of good will seldom found. The people of the United States have remembered their own Declaration of Independence and have fulfilled a duty to mankind."

President Palma has a wife and a family of six children. Two of the oldest boys will remain in the United States school which they are now attending. Mrs. Palma and the other children will join the president in Cuba at the inauguration in Havana.

## TRAINING A RIDING HORSE.

The Master Made Good His Assertion as to What He Could Do.

"Yes," said the riding master, "I have to be a horse trainer as well as a riding master. In fact, I couldn't very well be the second without being the first. I always have horses in my school stables here that are sent to me to train for my pupils. One came this morning, and if you have the time to spare I will show you how I give the first lesson in obedience."

The master then ordered one of his men to bring the horse out into the "school," a great oblong space, covered with sawdust and inclosed and roofed. The horse was a fine, spirited animal, with an intelligent and kindly eye, and the master said at once that he would be a tractable and teachable subject, explaining that he had not yet had a chance to "make his acquaintance."

"Now," said he, "you must remember that this horse has never seen me before and that I am, therefore, a perfect stranger to him, and yet I think I can establish between him and myself so good a feeling that in five minutes' time he will follow me all about the school at a word of command—perhaps without a command. Let us see."

He then approached the horse, and the man stepped away. Speaking a few words gently, he patted the animal's neck and rubbed his hand over his head. Telling the man to give him a small riding whip, long and straight, with a keen lash, he placed himself with his right shoulder close to the horse's head, holding the bridle rein near the bit with his right hand and in his left hand the whip extended back horizontally so that the lash was opposite to the horse's flank.

"Now," said he, "for our lesson." And he began leading the horse around the school, keeping his shoulder close to the animal's head. Presently he took his hand off the bridle, and the horse at once began to move away from his shoulder, but a sharp turn of the master's wrist brought the lash of the whip against his flank just hard enough to make a little sting, and at the same time the master caught hold of the bridle and gently pulled the refractory head close to his shoulder again.

This was repeated half a dozen times, and then the horse evidently reasoned out the situation somewhat in this way:

"As long as I keep my head close to this man's shoulder it's all right, but the minute I take it away something back there jumps up and stinks me. Therefore I'll not take it away any more."

That must have been the way he reasoned, for within the five minutes' time allotted by the riding master the horse was following him all around the school like a big dog, nor did the master have to touch the bridle once.—Atlanta Constitution.

### Not a Practical Philanthropist.

One day last winter when it was very cold a richly dressed woman stopped and gazed sternly at an ice wagon that was drawn up beside the curb on Walnut street, near Fifteenth. She stood there for ten minutes. Then the iceman came out of a certain house, and she said to him, "Driver, why don't you blanket your horses?" "Because, lady, the kump'nny don't furnish me no blankets," said the man. "Then," exclaimed the woman, "you should cover them with your coat." "All right, ma'am," said the driver, smiling. "You gimme your coat for the near hoss, an I'll put mine on the off one."

### Twain and the Printer.

Mary Twain once had a trying experience with a compositor, one of those conscientious compositors who not only know, but know that they know. According to a writer in Harper's Weekly, Mr. Clemens had received from his publishers the proofs of a story which he considered as funny as anything he had ever written, but on reading the proofs he dismally discovered that the fun had been carefully eliminated. Mr. Clemens returned the proofs, congratulating the compositor upon having consumed "only one week in making sense of a story which he himself required two weeks to make nonsense of!"

### The First Skirmish.

Newlywed (after the first cloud has passed)—Kitty, you must not feel unhappy. Why, in my opinion never to count for anything? Kitty (after thinking it over)—Surely, sometimes, when we have the same opinion, yours will count, and when we differ mine will.—New York Times.

### His Speech.

"I wonder what he meant," said the man who had been trying to make a speech. "What he said, very likely," some one suggested.

"Yes, I know, but he said my flow of words was continuous without continuity."—Chicago Post.

### Hooligan's Birthday.

"Yis," said Hooligan as he stuck his piece of pipe between his lips and rolled some tobacco in his hands, "it's wonderful how toime flies. Yesterday Ot was only fifty-wan, an' today Ot's fifty-too. Got a match, Dougherty?"—Indianapolis Sun.

Toadstools are often mistaken for mushrooms, and gall is sometimes mistaken for genius.—Chicago News.

The minutes saved by hurry are as useless as the pennies saved by parsimony.—C. B. Newcomb.

Eggs for hatching from thoroughbred White Silver Wyandottes and White Plymouth Rocks, \$1 per setting.

## A British View.

A London cablegram says the approaching establishment of the Cuban republic is discussed with interest by the English press, and that "Americans are credited with altruism in refraining from permanent occupation of the island and with sincerity in redeeming their pledges."—Indianapolis Journal.

### The Gang Plank Broke.

New York, April 14.—Fifty persons narrowly escaped drowning Sunday when a gang-plank leading to a float at the foot of West 42nd street broke in two, throwing 15 fashionably dressed men and women into the North river, 20 more into the launches and rowboats beneath the gang-plank, and 15 upon the float. Fortunately there were launches and rowboats in the immediate vicinity, and the work of rescue was at once begun. It was 15 minutes, however, before the last person was taken from the river. All were in an exhausted condition and many had sustained injuries about the head and body.

### Made Death Sure.

Chicago, April 14.—Grief over the difficulties in which her son had become involved is believed to have caused Mrs. Fanny Goldman of Toronto, Can., to end her life Sunday in a room at a Madison street hotel. She ended her life by first drinking carbolic acid, then turning on the gas from three jets that were in the room. Mrs. Goldman came here last Friday in response to a letter from her son Jacob, who is in the county jail awaiting removal to the Pontiac reformatory for violating his parole.

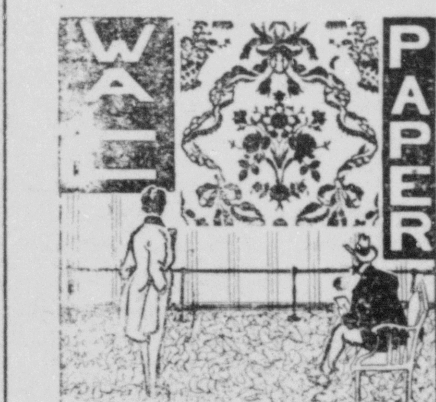

### Boy Charged With Murder.

Lincoln, Neb., April 14.—Lawrence Stultz, aged 14, is dead, and Louis Fairchild, of the same age, is in the city jail with a charge of murder placed against him. The boys quarreled Saturday at a ball game as to who should be umpire and Stultz was struck, fracturing the temple. He was able to walk home, but failed rapidly and died in the night.

## Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c per bottle. Hall's Family Pills are the best.

## You Might Trim Your Walls With Flowers.

—Real violets, roses, lilies-of-the-valley—almost any blossoms—and they won't be a bit prettier than the wall paper we have. Besides it would cost more, and be lots of trouble. We will put any paper you select on any room in your house and we will make no muss or bother. Papering has come to be such a science nowadays, and paper is so cheap that people don't wait until spring cleaning. They change the paper on their walls whenever they get tired of it, or it is the least soiled.

We're at your disposal at anytime, go anywhere, and do all kinds of work from the cheapest to the finest.

**His Own Experience**

"After years of bitter experience including bankruptcy, I learned the value of advertising," says Mr. C. C. Shayne, the largest merchant of New York. "I discovered that the road to success is through judicious advertising. I believe in advertising, and I think that if \$10 worth of newspaper space pays \$15 worth will pay better; if \$25 worth pays \$50 worth will pay better—and so on until your business reaches such a magnitude that you cannot supply the demand. Even then it is not good policy to quit advertising. The best medium of course, is the daily newspaper."

D. F. Trowbridge, of Grassy Fork township, was here on business Saturday.

**PERSONAL.**

Miss Ida Seulke went to Jonesville Saturday evening.

W. H. Hughes spent Sunday at friends at Mitchell.

G. C. Borcharding, of Indianapolis, spent Sunday here.

George Patrick, who is in the employ of the long distance telephone people, spent Sunday here. His headquarters are at Scottsburg now

Agent Wray, J. M. & I. station agent, spent Sunday at Madison.

James Wyatt, who is employed on the Bloomington and St. Louis line, came in Saturday to spend a day or two.

John R. Walsh, president of the Southern Indiana, and Superintendent J. W. Thompson, of the same line, were in the city Sunday.

**RAILROAD RUMBLINGS.**

We reproduce the article below, from the Orange Judd Farmer regarding seed corn which will certainly be of much interest to the farmers generally:

"Orange Judd Farmer wants to again emphasize the necessity of making a careful test of seed corn. The crop matured poorly last year. The cold weather of December came on before the kernels were thoroughly dried out, and as a result many of the germs were killed. Tests already made by experiment stations and individual farmers indicate an exceedingly low vitality. If this seed is carelessly planted, the loss to the corn-belt farmers will be incalculable. The only safe plan is for each farmer to test his own seed. This is easily done and is very important. Old corn from the crop of 1900 may be much better than that from last year's crop. If you have any, try this and see. Under no circumstances neglect to test all corn to be used as seed."

J. H. Hodapp has been making some tests of the 1901 crop and finds that only about 60 per cent. of it will sprout. He has also been testing the 1900 crop and finds that about all of it will sprout. These tests can be seen at his office. See him before buying your seed corn.

**1900 Corn for Seed.**

We reproduce the article below, from the Orange Judd Farmer regarding seed corn which will certainly be of much interest to the farmers generally:

"Orange Judd Farmer wants to again emphasize the necessity of making a careful test of seed corn. The crop matured poorly last year. The cold weather of December came on before the kernels were thoroughly dried out, and as a result many of the germs were killed. Tests already made by experiment stations and individual farmers indicate an exceedingly low vitality. If this seed is carelessly planted, the loss to the corn-belt farmers will be incalculable. The only safe plan is for each farmer to test his own seed. This is easily done and is very important. Old corn from the crop of 1900 may be much better than that from last year's crop. If you have any, try this and see. Under no circumstances neglect to test all corn to be used as seed."

J. H. Hodapp has been making some tests of the 1901 crop and finds that only about 60 per cent. of it will sprout. He has also been testing the 1900 crop and finds that about all of it will sprout. These tests can be seen at his office. See him before buying your seed corn.

**Card of Thanks.**

We desire as a family to extend our sincere thanks to our friends and neighbors for their aid and sympathy during the sickness and after the death of little Maude Spears, and for their continued helpfulness and good offices toward Mrs. Spears who is yet quite ill. JACOB SPEARS AND FAMILY.

**He Kept His Leg.**

Twelve years ago J. W. Sullivan, of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poisoning set in. For two years he suffered intensely, "but," he writes, "I used one bottle of Electric Bitters and I 1-2 boxes of Bucklen's Arnica Salve and my leg was well as ever." For Eruptions, Eczema, Tetter, Salt Rheum, Sores and all blood disorders Electric Bitters has no rival on earth. Try them. W. F. Peter's will guarantee satisfaction or refund money. Only 50 cents.

**Advertised Letters.**

**JACKSON & TINDER, Jewelers.**

**A WORLD WIDE VICTORY.**

The recent victories of the house of Baldwin at the Paris Exposition give to its products a value and prestige not possessed by any other American piano. The grand Prix awarded the Baldwin Piano is an honor coveted by all the manufacturers of the world, but which has never been bestowed upon any American piano except the Baldwin. The Silver Medal awarded the Hamilton pianos and organs shows the estimate of the International Jury of these Standard Instruments. The fifteen other awards [gold, silver and bronze medals, and honorable mentions], serve to emphasize the Great one, and show the high value placed upon the details of construction and the inventions embodied in these instruments.
